Founded in Riyadh, Saudi Arabia in 1979, Jazeera Paints is a pioneering paint manufacturer in the Gulf Cooperation Council (GCC) and Middle East and North Africa region (MENA), with an established reputation for manufacturing and exporting high-quality and eco-friendly paints.

Since the founding of the company, its production capacity has grown to 400,000 tonnes annually, and Jazeera Paints is now displayed in more than 750 active showrooms.

Jazeera Paints is the leading company, outside the United States, that manufactures "Green Seal" certified paint products, which meet the Leadership in Energy and Environment Design (LEED) requirements. In addition, Jazeera Fire Damp paint products are certified by Exova Warringtonfire, a certification that ensures safety and quality compliance. The company operates with the highest international standards and follows the ISO management systems, including ISO 14001, ISO 9001, and ISO 45001.

Through the Jazeera Paints Academy, Jazeera Paints endeavors to raise the level of quality and progress of the paint industry in the region. In 2012, the academy became the first institution to offer specialized training in paint manufacturing and applications in the GCC countries and in the entire MENA region. Moreover, in its pursuit to maximize investments in a certain field of scientific research related to nanotechnology, Jazeera Paints has signed an agreement of cooperation with King Saud University with the aim of revolutionizing the paint industry.

To further support these efforts, Jazeera Paints has a dedicated research and development (R&D) center that specializes in evaluation and testing of paint products in the uniquely harsh weather conditions of the GCC and MENA region.
